

Diversity & Inclusion Statement

Diversity and inclusiveness should be at the core of every society. We at Caring believe in this and attach great importance to an environment where all differences are valued and everyone has a sense of belonging. We want people to inspire each other and work together and grow together every day. At Caring, we believe in the power of different views and backgrounds in collaboration.

Diversity is about differences. At Caring, we pay close attention to differences, including nationality, cultural background, language, education, gender, ethnicity, generation, age, work and thinking styles, religious background, sexual orientation, abilities, disabilities, experiences and career paths.

Inclusiveness is about leveraging these differences to create an environment where everyone feels valued and appreciated for who they are, have a sense of belonging, and are inspired to give their best at every encounter.

Everyone within Caring endorses and signs this statement and will continue to work towards it time and time again every day.
